Training Course: Supply Chain Risk Management

Training Course code: PC4003 From: 20 - 24 July 2026 Venue: Rome (Italy) - Training Course Fees: 6050 € Euro

Introduction

In today's globalized market, effective supply chain management is essential for reducing costs while improving service levels. However, international trade introduces significant risk and uncertainty, which can lead to higher costs and reduced operational efficiency.

This program equips supply chain professionals with the knowledge and tools to identify, analyze, and manage risks, ensuring resilience, agility, and improved service performance throughout the supply chain. Participants will gain practical insights to mitigate risks, improve supply chain visibility, and apply international best practices.

Course Objectives

Upon completion of this program, participants will be able to:

- Apply a thorough understanding of supply chain operations
- Identify, analyze, and evaluate risks across the supply chain
- Understand key strategies to reduce risk
- Apply risk management tools and techniques effectively
- Implement organizational improvements in supply chain processes

Target Audience

- Supply Chain Managers and Professionals
- Procurement and Purchasing Specialists
- Logistics and Operations Managers
- Risk Management and Compliance Officers
- Project Managers involved in supply chain initiatives
