Training Course: The Security Officer Development Program

Training Course code: HE7014 From: 30 August - 3 September 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 4100 € Euro

Introduction

Security officers play a critical role in organizations, requiring skills to enhance both personal and organizational performance amidst evolving risks and threats. This seminar equips participants with the knowledge and expertise to meet international standards and implement best practices in security. Topics include technical security roles, risk assessment, legislation, health/safety, incident control, and crisis management. The course focuses on conflict resolution, effective security solutions, and empowering officers to contribute to organizational productivity.

Objectives

- Identify best practice and effective policy implementation on leading security solutions
- Effectively operate and interact with a security function
- Identify communication strategies to build more productive communications
- Understand the roles of Security Officer
- Know how to effectively diffuse and deal with conflict
- Understand special risk requirements
- Identify the components of an Improvised Explosive device IED

Process

The delegates will be involved in the latest trends in seminar presentations. The classroom presentations are made up of interactive practical exercises, supported by audiovisual material and case studies. Delegates will be expected to participate actively in relating the principles of security management to the specific needs for their industry. The final week's module involves delegates in security case studies and actual issues that exist in their organizations. This practical development of skills will benefit delegates who then can return to work ready for the implementation of security measures and plans.

Benefits

The program will identify best practices for security roles including the main responsibilities for the security officer, the challenges faced and methods for successfully addressing these issues. Individuals will learn to identify critical success factors and early warning indicators to effectively combat risks before they impact the organization. This course has a unique feature, a practical, hands-on module of security case studies and works on an actual security issue in the delegate's place of work. This feature allows delegates to learn and practice skills in typical work situations.

Results

- Gain an improved personal knowledge of threats and risks to their organization, they will learn skills to combat these threats and put into place standards, plans, and strategies which if successfully implemented will increase their professional reputation and improve their ability to deal with serious security issues.
- Gain an understanding of the strong business reasons why organizations should effectively manage and plan to protect their human and physical resources. This will lead to improvements in their organization's professional reputation, standard operating procedures, and the ability to continue to function effectively and successfully in the face of today's threats.
