Grinding Technology & Efficiency in Cement  
Plants*

*9 - 13 November 2026  
Kuala Lumpur (Malaysia)*

## Training Course: Grinding Technology & Efficiency in Cement Plants

Training Course code: SC235450 From: 9 - 13 November 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300 € Euro

### Introduction:

Grinding technology plays a pivotal role in the efficient production of cement, serving as a critical process that impacts both quality and cost-effectiveness. By optimizing grinding processes within cement plants, operators can enhance overall efficiency, reduce energy consumption, and improve sustainability metrics. This training program aims to delve into the core principles of grinding technology, equipping participants with essential knowledge and strategies to maximize productivity and operational effectiveness. Through a comprehensive exploration of equipment, processes, and optimization techniques, participants will gain insights crucial for meeting the challenges and demands of modern cement manufacturing.

### Objectives

- Understand the fundamentals of grinding technology in cement production
- Learn methods to improve grinding efficiency and productivity
- Acquire knowledge of equipment selection, operation, and maintenance best practices
- Gain insights into energy efficiency and sustainability in grinding processes
- Enhance troubleshooting skills related to grinding operations

### Target Audience

- Plant managers
- Process engineers
- Production supervisors
- Maintenance engineers
- Technical staff involved in grinding operations

### Outlines:

Day 1:

#### Fundamentals of Grinding Technology

- Introduction to cement manufacturing process

- Principles of comminution and grinding
- Types of grinding mills used in cement plants
- Grinding circuits and their configurations
- Safety considerations in grinding operations

#### Day 2:

##### Grinding Equipment and Systems

- Overview of grinding equipment ball mills, vertical roller mills, etc.
- Selection criteria for grinding equipment
- Components and working principles of grinding mills
- Maintenance strategies for grinding equipment
- Case studies and best practices in equipment optimization

#### Day 3:

##### Grinding Process Optimization

- Factors affecting grinding efficiency
- Techniques for improving grinding performance
- Grinding media selection and optimization
- Process control and automation in grinding operations
- Case studies on process optimization in cement plants

#### Day 4:

##### Energy Efficiency and Sustainability

- Energy consumption in grinding processes
- Strategies for reducing energy consumption
- Alternative fuels and their impact on grinding efficiency
- Environmental considerations and sustainability initiatives
- Case studies on energy efficiency improvements in grinding

Day 5:

Troubleshooting and Case Studies

- Common issues in grinding operations and troubleshooting methods
- Root cause analysis in grinding problems
- Preventive and corrective maintenance practices
- Case studies of successful troubleshooting in cement plants
- Q&A session and review of key learnings

## Registration form on the Training Course: Grinding Technology & Efficiency in Cement Plants

Training Course code: SC235450 From: 9 - 13 November 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300 € Euro

Complete & Mail or fax to Global Horizon Training Center (GHTC) at the address given below

### Delegate Information

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Company Information

Company Name: .....  
 Address: .....  
 City / Country: .....

### Person Responsible for Training and Development

Full Name (Mr / Ms / Dr / Eng): .....  
 Position: .....  
 Telephone / Mobile: .....  
 Personal E-Mail: .....  
 Official E-Mail: .....

### Payment Method

- Please find enclosed a cheque made payable to Global Horizon
- Please invoice me
- Please invoice my company

### Easy Ways To Register

Telephone:  
+201095004484 to  
provisionally reserve your  
place.

Fax your completed  
registration  
form to: +20233379764

E-mail to us :  
info@gh4t.com  
or training@gh4t.com

Complete & return the  
booking form with cheque  
to: Global Horizon  
3 Oudai street, Aldouki,  
Giza, Giza Governorate,  
Egypt.
