

*Training Course:  
Advanced Process Risk Management Risk,  
Assessment, and Compliance*

*8 - 19 June 2026  
Geneva (Switzerland)*

## Training Course: Advanced Process Risk Management Risk, Assessment, and Compliance

Training Course code: MA234859 From: 8 - 19 June 2026 Venue: Geneva (Switzerland) - Training Course Fees: 9550 € Euro

### Introduction

In today's highly regulated and risk-sensitive industries, organizations must adopt an integrated approach that combines **risk management**, **regulatory compliance**, and **process safety** to ensure operational excellence and sustainability. The **Advanced Process Risk Management, Risk Assessment, and Compliance** program is designed to equip professionals with the advanced knowledge and practical skills required to manage risks effectively while ensuring compliance with regulatory frameworks and international standards.

By the end of the program, participants will be able to design, implement, and monitor risk and compliance systems, enhance safety culture, and support decision-making processes that protect organizational assets, reputation, and long-term value.

### Course Objectives

By the end of this program, participants will be able to:

- Differentiate between hazard, risk, and risk assessment concepts
- Apply advanced risk assessment methodologies HAZOP, FMEA, ETA, FTA, QRA
- Identify, evaluate, and mitigate risks in process industries
- Balance risk reduction strategies against cost and operational constraints
- Understand regulatory frameworks and compliance obligations
- Develop and implement compliance programs and internal control systems
- Analyze incidents using root-cause analysis techniques
- Understand the role of governance, compliance, and regulatory bodies
- Build and promote a strong compliance and safety culture
- Address risks related to financial crime, fraud, bribery, and money laundering
- Design compliance manuals and monitoring programs
- Integrate risk management with HSE management systems

### Target Audience

This program is designed for:

- Risk Management Professionals working in process and industrial environments
- Compliance Officers and Regulatory Professionals
- HSE Health, Safety & Environment Specialists and Engineers
- Operational and Technical Managers in high-risk industries oil & gas, manufacturing, energy, etc.
- Internal and External Auditors
- Board Members and Senior Executives involved in governance and compliance

- Professionals Seeking Advanced Knowledge in risk, compliance, and process safety
