Training Course: Security Management, Planning & Asset Protection

Training Course code: HE7002 From: 15 - 19 November 2026 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 6300 € Euro

Introduction

This program focuses on equipping professionals with the knowledge and skills to manage security and protect assets effectively. Security management is critical for business success, requiring the integration of strategies that secure physical, intellectual, and operational assets while supporting organizational objectives.

Participants will learn to identify key assets, assess risks, analyze vulnerabilities, and implement safeguards. The program also covers crisis management, business continuity planning, and aligning security practices with international standards.

Objectives

By the end of this program, participants will be able to:

- Apply best practices in security management
- Plan and implement security projects effectively
- Create asset protection programs, including intellectual property safeguards
- Lead and manage proactive security teams

Target Audience

- Security managers and supervisors
- Risk and compliance officers
- Facility managers and operations managers
- Professionals responsible for corporate or physical security
- Personnel involved in emergency planning, crisis management, or asset protection
