Training Course: Advanced Risk and Incident Analysis

Training Course code: MA234576 From: 6 - 10 December 2026 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel
Training Course Fees: 4350 € Euro

Introduction

In today's high-risk and fast-paced operational environments, organizations must move beyond reactive responses to incidents and adopt a proactive, data-driven approach to risk and incident analysis. This program, developed by [Global Horizon Training Center](#), provides advanced methodologies and tools to systematically identify risks, investigate incidents, and prevent recurrence.

The course integrates risk management frameworks with structured incident investigation techniques, enabling participants to uncover root causes, analyze contributing factors, and implement effective corrective actions. Participants will enhance their analytical capabilities, strengthen decision-making, and contribute to building a resilient and safety-driven organizational culture.

Course Objectives

By the end of this program, participants will be able to:

- Apply advanced principles of risk and incident analysis
- Identify and assess complex risks across operations
- Conduct structured and effective incident investigations
- Perform root cause analysis using advanced tools and methodologies
- Differentiate between immediate, underlying, and root causes
- Develop and implement corrective and preventive action plans CAPA
- Improve incident reporting, documentation, and communication
- Integrate incident analysis into enterprise risk management systems
- Support continuous improvement and organizational learning

Target Audience

This program is designed for:

- Risk Management and Compliance Professionals
- HSE Health, Safety, and Environment Officers
- Incident Investigation Teams and Auditors
- Operations and Maintenance Managers
- Engineers and Technical Specialists
- Quality Assurance and Control Professionals
- Professionals responsible for safety, risk, and incident reporting
