Rome (Italy)*

## Training Course: The Complete Course on Facilities Management

Training Course code: MA234801 From: 28 September - 2 October 2026 Venue: Rome (Italy) - Training Course Fees: 6050 € Euro

### Introduction

Facilities Management FM is essential for ensuring that buildings, infrastructure, and services effectively support organizational operations. The [Complete Course on Facilities Management](#) provides participants with a comprehensive understanding of both operational and strategic aspects of managing facilities.

The program covers key areas such as maintenance, asset management, HSE, contract management, sustainability, and modern technologies, enabling participants to enhance efficiency, reduce costs, and improve overall facility performance.

### Course Objectives

By the end of this program, participants will be able to:

- Understand the scope and functions of facilities management
- Manage both hard and soft FM services effectively
- Develop and implement maintenance strategies and asset management plans
- Apply health, safety, and environmental HSE standards in facilities operations
- Optimize space utilization and workplace management
- Manage service contracts and vendor performance
- Apply risk management and business continuity planning in FM
- Integrate sustainability and energy management practices
- Utilize technology and smart systems in facilities management
- Monitor and improve facility performance using KPIs
