Training Course: Contract Cost and Price Analysis

Training Course code: PC4090 From: 11 - 15 October 2026 Venue: Amman (Jordan) - Training Course Fees: 4200 € Euro

Introduction

Obtaining fair and reasonable pricing from contractors and suppliers is a critical goal for both businesses and governments. This program equips participants with the essential skills to conduct effective **Cost and Price Analysis**, enabling better decision-making in procurement and contract management. Attendees will learn to manage costs in volatile markets, understand pricing methods used by contractors, and evaluate the elements that make up a fair and reasonable price.

Course Objectives

By the end of this program, participants will be able to:

- Understand the importance of price and cost analysis in continuous improvement programs
- Differentiate between cost analysis and price analysis and select the appropriate method
- Apply methods of price analysis, including historical and market-based techniques
- Use analytical tools to identify cost drivers and develop "should cost" models
- Analyze supplier pricing models and Total Cost of Ownership TCO approaches
- Implement strategies to obtain better pricing in volatile markets
- Report and track cost reduction and savings effectively

Target Audience

- Contract and Procurement Managers
- Supply Chain Professionals
- Cost Estimators and Analysts
- Commercial and Contract Officers
- Project Managers involved in procurement and vendor negotiations

Course Outlines 5 Days

Day 1 - Defining Cost Savings Opportunities

- Reducing the cost of purchased goods and services
- Understanding the impact of contracts on the bottom line
