Training Course: E-Technologies for Middle and Top Managers

Training Course code: MA9327 From: 29 November - 10 December 2026 Venue: Manama (Bahrain) - Training Course
Fees: 4725 € Euro

Introduction

In today's digital era, organizations must leverage emerging technologies to remain competitive, agile, and innovative. Middle and top managers play a crucial role in driving digital transformation, adopting e-technologies, and aligning technology initiatives with business strategy.

This program, developed by [Global Horizon Training Center](#), provides a comprehensive understanding of key electronic e- technologies and their strategic applications in modern organizations. It focuses on how managers can utilize digital tools, data, and systems to improve decision-making, enhance operational efficiency, and lead technology-driven change.

Participants will gain practical insights into integrating e-technologies into business processes, managing digital initiatives, and navigating the challenges of technological transformation.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role of e-technologies in modern organizations
- Identify key digital tools and platforms used in business operations
- Leverage technology for improved decision-making and performance
- Apply e-business and digital transformation concepts
- Manage digital projects and technology-driven initiatives
- Enhance communication and collaboration using digital tools
- Understand cybersecurity risks and data protection principles
- Align technology strategies with organizational objectives
