Madrid (Spain)*

Training Course: Real Estate Asset Management

Training Course code: MA234856 From: 1 - 5 June 2026 Venue: Madrid (Spain) - Training Course Fees: 5775 € Euro

Introduction

In an increasingly competitive and capital-intensive real estate market, effective asset management is critical to maximizing property value, optimizing returns, and ensuring long-term portfolio sustainability. The [Real Estate Asset Management](#) program is designed to equip professionals with the strategic, financial, and operational capabilities required to manage real estate assets across their full lifecycle.

This program provides a comprehensive understanding of how to align asset performance with organizational investment objectives. Participants will explore key concepts such as portfolio strategy, financial analysis, leasing optimization, risk management, and value enhancement techniques. The course integrates industry best practices with practical tools used by leading real estate firms and institutional investors.

Through real-world case studies and applied exercises, participants will develop the ability to make informed decisions, improve asset performance, and implement effective asset management strategies that drive profitability and long-term growth.

Course Objectives

By the end of this program, participants will be able to:

- Understand the principles and functions of real estate asset management
- Align asset management strategies with investment and organizational objectives
- Analyze financial performance of real estate assets using key metrics ROI, IRR, NPV
- Develop strategies to maximize asset value and income generation
- Optimize leasing, tenant mix, and occupancy levels
- Apply risk management techniques in real estate portfolios
- Evaluate capital expenditure CAPEX and asset repositioning opportunities
- Monitor asset performance and implement improvement plans
- Understand market trends and their impact on asset valuation
