Training Course: Handling Information Overload

Training Course code: MA1146 From: 6 - 10 July 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

In today's digital and fast-paced work environment, professionals are constantly exposed to vast amounts of information from emails, reports, meetings, and digital platforms. While access to information is essential, excessive and unstructured data can lead to decreased productivity, poor decision-making, and increased stress.

This program, developed by [Global Horizon Training Center](#), equips participants with practical strategies and tools to effectively manage, filter, and prioritize information. It focuses on improving focus, enhancing decision-making, and optimizing workflows by reducing unnecessary distractions and information clutter.

Participants will learn how to streamline communication, manage digital inputs, and develop habits that support efficiency, clarity, and better performance.

Course Objectives

By the end of this program, participants will be able to:

- Understand the causes and impact of information overload
- Prioritize and filter relevant information effectively
- Apply techniques to manage emails, meetings, and digital content
- Improve focus and productivity through structured workflows
- Enhance decision-making using organized information
- Utilize tools and systems to manage information efficiently
- Reduce stress and cognitive overload
- Develop sustainable habits for managing information

Target Audience
