

*Conference:
Scaffolding, Rigging & Lifting: Safe Handling,
Operation & Supervision*

4 - 8 October 2026

Cairo (Egypt)

Holiday Inn & Suites Cairo Maadi, an IHG Hotel

Conference: Scaffolding, Rigging & Lifting: Safe Handling, Operation & Supervision

Conference code: CO8264 From: 4 - 8 October 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Conference Fees: 4100 € Euro

Introduction

This conference is designed for individuals involved in scaffolding, rigging, and lifting, or those supervising these tasks. It covers various types of scaffolding, including tube & fitting, mobile scaffolding, and system scaffolding. Participants will learn about rigging and lifting techniques, including selecting and inspecting lifting tackle, safely connecting to loads, and moving loads efficiently. The program provides essential skills for safe and effective scaffolding, rigging, and lifting operations.

Objectives

- Legal requirements
- Scaffold fittings & lifting tackle identification & use
- Scaffolding, rigging & lifting terminology
- Inspection of scaffolding & lifting tackle
- Recording of inspections
- Scaffold tag system and its use
- Reasons for collapses of scaffolding
- Basic safety requirements

Conference Methodology

The training course will combine classroom presentations i.e. OHP & Powerpoint, with practical assessments, supported by video / DVD material. Delegates will be expected to participate actively in relating the principles of erecting & inspecting scaffolding to the particular needs of their industry and they will have to evidence their understanding of the knowledge gained by answering a post-conference questionnaire.

Organizational Impact

- Improvement in safety statistics as staff use tried and tested methods in use around the world
- Improvement in efficiency as staff use tried and tested methods in scaffolding
- Reduction in risk and liability arising from accidents and incidents relating to scaffolding
- Improved organization as staff use new safe systems of work, inspection & reporting procedures, which can be monitored and reviewed as necessary

Personal Impact

Staff who successfully complete this course will gain in confidence, from the experience gained on the course, as they realize these are methods and safe systems of work used around the world in similar working environments. They will also gain in confidence with the knowledge they are competent, qualified and certificated to carry out or supervise the tasks they are required to do in scaffolding operations

Outlines

Day 1: Introduction to the Conference

- Legal requirements.
- Scaffold fittings identification & use
- Lifting tackle identification & use
- Scaffolding terminology
- Rigging & lifting terminology
- Inspection of scaffolding
- Inspection of lifting equipment

Day 2: Different types of scaffolding in use

- Review of day 1
- Types of scaffolding
- Tube & fitting
- Video presentation
- Kwikstage
- Video presentation
- Cuplok
- Frames

Day 3: Inspection of scaffolding

- Review of day 2
- Mobile scaffolding
- The working platform
- The structure

- Video presentation
- Recording of inspections of scaffolding
- Scafftag system and its use
- Video presentation

Day 4: Working safely on scaffolding

- Review of day 3
- Reasons for collapses of scaffolding
- The wearing of harnesses to erect scaffolding
- SG4:05 and changes to it
- Video presentation
- Inspection of harnesses
- Video presentation
- Selecting & inspecting the correct lifting tackle

Day 5: Rigging & Lifting

- Review of day 4
- Attaching the load to the lifting appliance correctly
- Estimating the weight of the load to be lifted
- Video presentation
- Correct signs & signals to direct crane operations
- Correct procedure for lifting, moving & lowering loads safely
- Video presentation
- Questionnaire
- Any questions and close
