Training Course: Business Process Reengineering

Training Course code: MA8300 From: 1 - 5 June 2026 Venue: Lisbon (Portugal) - Training Course Fees: 6050 € Euro

Introduction

In today's highly competitive and rapidly evolving business environment, incremental improvements are often not enough to achieve breakthrough performance. Organizations must rethink and radically redesign their core processes to achieve dramatic improvements in productivity, quality, speed, and customer satisfaction.

This program, developed by [Global Horizon Training Center](#), provides participants with a comprehensive framework for Business Process Reengineering BPR. It focuses on analyzing existing processes, identifying inefficiencies, and redesigning workflows to achieve transformational results. Participants will learn how to implement large-scale process changes while managing risks and ensuring organizational alignment.

Course Objectives

By the end of this program, participants will be able to:

- Understand the principles and objectives of Business Process Reengineering
- Identify processes suitable for reengineering
- Analyze existing processes and identify inefficiencies
- Apply radical redesign techniques to improve performance
- Integrate technology into process redesign
- Manage organizational change during BPR initiatives
- Measure the impact of reengineering efforts
- Achieve significant improvements in cost, quality, and service delivery

Target Audience

This program is designed for:

- Senior Managers and Executives
- Business Process Owners and Analysts
- Operations and Performance Improvement Professionals
- Project and Program Managers
- IT and Digital Transformation Professionals
- Quality and Continuous Improvement Teams
- Government and Public Sector Leaders
