## Training Course: Job Evaluation & Analysis (Certified Job Analyst)

Training Course code: HR3013 From: 23 - 27 November 2026 Venue: Singapore - Training Course Fees: 6250 € Euro

### Introduction

This specialized program, designed by Global Horizon Training Center, provides a structured and practical approach to mastering **job analysis and job evaluation** as critical components of modern Human Resource Management.

In increasingly competitive labor markets, organizations must ensure that their pay and grading structures are equitable, transparent, and aligned with both organizational strategy and employee expectations. This program equips participants with the methodologies required to systematically analyze roles, evaluate job worth, and design compensation frameworks that support performance, motivation, and retention.

Participants will explore a range of analytical and non-analytical job evaluation techniques, develop job profiles, and learn how to translate evaluation outcomes into effective pay structures. The program also addresses the strategic dimension of compensation, enabling participants to advise senior management on reward systems that balance cost control with talent attraction and retention.

### Objectives

By the end of this program, participants will be able to:

- Understand the principles and techniques of job analysis and job evaluation
- Identify and apply the stages of a job analysis and evaluation project
- Conduct job analysis using multiple methodologies and tools
- Apply job evaluation techniques to assess the relative value of roles
- Design and develop effective pay and grading structures
- Align compensation systems with organizational culture and strategy
