Training Course:
Oracle Cloud Infrastructure Architect Associate

21 - 25 September 2026
London (UK)

Training Course:
Oracle Cloud Infrastructure Architect Associate

Training Course code: IT235043 From: 21 - 25 September 2026 Venue: London (UK) - Training Course Fees: 6300 Euro

Introduction:

Oracle Cloud Infrastructure OCI Architect Associate is a certification that recognizes IT professionals with the skills and knowledge required to design and implement solutions using the OCI platform. This training program aims to provide an overview of OCI and prepare participants for the OCI Architect Associate certification exam.

Objectives:

The objectives of this training program are to:

- Provide an understanding of the OCI architecture and its components.
- Introduce participants to the OCI services and features.
- Explain how to design and implement solutions using OCI.
- Help participants develop skills in optimizing and securing OCI environments.
- Prepare participants for the OCI Architect Associate certification exam.

Target Audience:

This training program is designed for IT professionals who are interested in learning about OCI and preparing for the OCI Architect Associate certification exam. It is suitable for:

- Cloud architects who want to enhance their knowledge and skills in designing and implementing solutions using OCI.
- System administrators who need to manage OCI environments as part of their job responsibilities.
- IT professionals who want to learn about OCI for career growth opportunities.
