Training Course: SharePoint 2016 Site Collections and Site Owner Administration

Training Course code: IT234759 From: 29 June - 3 July 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300 € Euro

Introduction

Obtain the skills needed for SharePoint 2016 site collections and site administration.

This course is intended for power users and IT professionals who are tasked with working within the SharePoint 2016 environment and conduct site collection and site administration. This course will provide a deeper, narrowly-focused training on the important and popular skills needed to do SharePoint site collection and site administration with SharePoint 2016 deployed on-premise, in Office 365 SharePoint Online or a hybrid deployment on-premise connected to Office 365.

Course Objectives

- Design and implement a company portal structure using SharePoint 2016 objects including sites, libraries, lists, and pages
- Role of security and permissions throughout SharePoint 2016
- Implement guidelines for consistency in building a company portal to aid in the day-to-day administration of content in SharePoint 2016
- Enhance the design and content of a company portal using SharePoint 2016 pages and web parts
- Importance of governance for the planning and managing future growth of the SharePoint 2016 implementation
- Options for integrating data from other systems such as Microsoft Office
- Preserve existing data
- Role of social networking in SharePoint 2016 and its impact on collaboration

Target Audience

This course is intended for professionals who are responsible for managing and maintaining SharePoint 2016 environments, including:

- SharePoint Site Owners and Site Collection Administrators
- Power Users responsible for daily SharePoint site management
- IT Administrators supporting SharePoint 2016 On-Premises, Office 365, or Hybrid environments
- Content Managers and Information Workers handling document and collaboration sites
- Business Users involved in portal management and content organization
- Helpdesk and Support Teams assisting end users with SharePoint issues

- Professionals tasked with configuring security, permissions, and governance within SharePoint
- Teams responsible for implementing company portals, workflows, and document management solutions
