Training Course: Contract and Tender Management

Training Course code: MA234827 From: 28 September - 2 October 2026 Venue: Paris (France) - Training Course Fees: 5775 € Euro

Introduction

Effective contract management and tendering processes are fundamental to achieving operational efficiency, cost optimization, and value creation in any organization. The [Contract Management and Tendering: Best Practices for Procurement Excellence](#) program is designed to provide participants with the knowledge and practical skills required to develop clear specifications, manage competitive bidding processes, and implement robust contract strategies.

This program focuses on the full lifecycle of contracts and tendering—from defining business needs and preparing tender documents to evaluating bids, awarding contracts, and managing execution. It also highlights the importance of understanding legal frameworks, stakeholder engagement, and risk management to ensure successful procurement outcomes.

Course Objectives

By the end of this program, participants will be able to:

- Understand the key elements of an effective procurement and tendering process
- Develop and evaluate tender documents and specifications
- Apply structured methods for bid evaluation and supplier selection
- Identify and implement appropriate contract strategies and types
- Understand essential legal and commercial contract clauses
- Develop performance-based service contracts
- Manage risks associated with tendering and contract execution
- Monitor and control contract performance effectively
- Apply best practices in contract administration and close-out

Target Audience

This program is designed for:

- Project Management Professionals
- Contracts and Procurement Specialists
- Purchasing and Supply Chain Professionals
- Engineering, Operations, and Maintenance Personnel
- Project and Program Managers
- Legal and Commercial Professionals involved in contracts
