Kuala Lumpur (Malaysia)*

Training Course: Strategic Management in Upstream Oil and Gas

Training Course code: EN235327 From: 9 - 13 November 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6825 € Euro

Introduction:

This training program provides a comprehensive understanding of strategic management principles as applied to the upstream sector of the oil and gas industry. Participants will delve into the unique challenges, opportunities, and strategic considerations specific to upstream operations, equipping them with the knowledge and skills necessary to develop and execute effective strategies in this dynamic industry.

Objectives:

- Understand the fundamentals of strategic management and its relevance to upstream oil and gas operations.
- Explore the key components of the upstream oil and gas value chain.
- Analyze industry trends, challenges, and opportunities shaping the upstream sector.
- Develop strategic frameworks for exploration, production, and asset management.
- Enhance decision-making skills in a complex and volatile market environment.
- Gain insights into sustainable practices and emerging technologies in upstream operations.

Target Audience:

This program is designed for professionals working in the upstream segment of the oil and gas industry, including:

- Oil and gas executives and managers
- Strategic planners
- Asset managers
- Exploration and production engineers
- Geoscientists
- Project managers
- Energy analysts
- Consultants and advisors
