Training Course: Developing and Managing IT contracts and Service Levels Agreements

Training Course code: IT1942 From: 23 - 27 August 2026 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 6300 € Euro

Introduction:

Welcome to the Developing and Managing IT Contracts and Service Level Agreements training program. This comprehensive 5-day program, totaling 25 hours, is designed to provide IT professionals, contract managers, and procurement officers with the knowledge and skills necessary for effective contract and service level agreement SLA management in the IT domain. Throughout this training, participants will understand the fundamentals of developing and managing IT contracts and SLAs, learn strategies for successful contract negotiation and drafting, and develop the skills required to effectively manage vendor relationships and contract performance. Additionally, the program will cover essential topics such as SLA development and monitoring, risk mitigation, and dispute resolution. Whether you are new to contract management or seeking to enhance your existing skills, this program will equip you with the tools and techniques needed to navigate the complexities of IT contracts and SLAs and achieve successful outcomes.

- Overview of the training program
- Importance of effective contract and service level agreement SLA management in IT
- Explanation of the impact of poorly managed contracts and SLAs
- Setting expectations and objectives

Objectives:

- Understand the fundamentals of developing and managing IT contracts and SLAs
- Learn strategies and best practices for contract negotiation and drafting
- Develop skills to effectively manage vendor relationships and contract performance
- Gain knowledge of SLA development and monitoring
- Enhance the ability to mitigate risks and resolve disputes in IT contracts

Target Audience:

This training program is designed for IT professionals, contract managers, project managers, procurement officers, and anyone involved in developing and managing IT contracts and SLAs. It is suitable for both beginners and experienced professionals looking to enhance their skills in this domain.
