

*Training Course:
ISO-14001 Environmental Management Systems*

*14 - 25 December 2026
London (UK)*

Training Course: ISO-14001 Environmental Management Systems

Training Course code: MA9247 From: 14 - 25 December 2026 Venue: London (UK) - Training Course Fees: 9450 € Euro

Introduction

Environmental sustainability and regulatory compliance have become critical priorities for organizations across all sectors. The [ISO 14001 Environmental Management System EMS](#) standard provides a structured framework to help organizations manage their environmental responsibilities, reduce environmental impact, and improve operational efficiency.

This program, developed by [Global Horizon Training Center](#), equips participants with the knowledge and practical skills required to understand, implement, and maintain an effective EMS in accordance with ISO 14001 requirements. The course focuses on integrating environmental management into organizational processes, ensuring compliance, and driving continuous improvement.

Course Objectives

By the end of this program, participants will be able to:

- Understand the structure and requirements of ISO 14001
- Interpret ISO 14001 clauses and apply them in practice
- Identify environmental aspects and impacts
- Develop and implement an Environmental Management System EMS
- Ensure compliance with environmental regulations and standards
- Establish environmental objectives and performance indicators
- Conduct internal audits and evaluate EMS performance
- Prepare for ISO 14001 certification audits
- Drive continuous improvement in environmental performance

Target Audience

This program is designed for:

- Environmental Managers and Officers
- HSE Health, Safety, and Environment Professionals
- ISO Consultants and Auditors
