Training Course: Inventory Accounting and Costing

Training Course code: FI1980 From: 5 - 9 October 2026 Venue: Geneva (Switzerland) - Training Course Fees: 6050 € Euro

Introduction:

Welcome to the training program on "Inventory Accounting and Costing," designed by Global Horizon Training Center. This program aims to provide participants with a comprehensive understanding of inventory accounting principles and costing methods. By the end of this training, participants will be equipped with the knowledge and skills necessary to effectively manage inventory-related financial transactions and make informed decisions related to inventory valuation.

Objectives:

- Understand the fundamental principles of inventory accounting.
- Gain knowledge of various inventory costing methods and their implications.
- Learn how to calculate and record inventory costs accurately.
- Develop proficiency in analyzing inventory-related financial statements.
- Acquire skills to evaluate inventory turnover and optimize inventory levels.
- Explore strategies for managing inventory-related risks and challenges.

Target Audience:

This training program is designed for accounting and finance professionals, inventory managers, supply chain managers, and individuals involved in inventory management and financial reporting. It is suitable for both beginners seeking a solid foundation in inventory accounting and costing and experienced professionals looking to enhance their knowledge and skills in this area.
