Training Course: Financial Management for Projects & Contracts

Training Course code: PC4092 From: 12 - 16 October 2026 Venue: London (UK) - Training Course Fees: 5775 € Euro

Introduction

Project and contract managers are accountable not only for meeting technical and scheduling goals but also for achieving profitability and cost-related targets. This program explores the financial metrics relevant to project and contract management, emphasizing the financial impact of decisions and actions. Participants will develop the skills to analyze financial data, apply cost control measures, and make informed decisions that enhance project profitability and organizational value.

Course Objectives

By the end of this program, participants will be able to:

- Communicate effectively with accounting and financial personnel
- Read, understand, and analyze financial statements and data
- Apply financial tools and metrics to project scheduling and cost control
- Minimize financial risks in projects and contracts
- Evaluate project financial returns and investment performance
- Understand how finance drives organizational decisions and project evaluation

Target Audience

- Project Managers
- Contract Managers
- Cost Controllers and Project Controllers
- Finance personnel working with projects
- Procurement professionals responsible for pricing and profitability
- Any professional seeking to strengthen project financial management skills

Course Outlines 5 Days
