Training Course: Business Information Technology Planning

Training Course code: MA9225 From: 27 September - 1 October 2026 Venue: Manama (Bahrain) - Training Course Fees: 4725 € Euro

Introduction

In today's digital economy, effective Information Technology IT planning is essential for aligning technology investments with business strategy, improving operational efficiency, and enabling innovation. Organizations must ensure that IT systems and initiatives support business objectives while managing risks, costs, and rapidly evolving technologies.

This program, developed by [Global Horizon Training Center](#), provides participants with a comprehensive framework for planning, managing, and aligning IT with organizational goals. It focuses on strategic IT planning, governance, resource optimization, and the implementation of technology solutions that drive business value.

Participants will gain practical insights into developing IT strategies, managing digital transformation initiatives, and ensuring that technology investments deliver measurable outcomes.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role of IT in achieving business objectives
- Develop and implement IT strategic plans
- Align IT initiatives with organizational strategy
- Evaluate and prioritize IT investments and projects
- Apply IT governance and management frameworks
- Manage risks and ensure data security
- Optimize IT resources and infrastructure
