Manama (Bahrain)*

Training Course: Agile Project Management

Training Course code: MA234701 From: 10 - 14 May 2026 Venue: Manama (Bahrain) - Training Course Fees: 4725 € Euro

Introduction

Agile project management is increasingly recognized as an effective approach for managing projects in dynamic and uncertain environments. The [Agile Project Management](#) program provides participants with a comprehensive understanding of Agile principles, methodologies, and practices, enabling them to deliver projects with greater flexibility, speed, and value.

This program introduces Agile concepts in a practical and adaptable way, allowing participants to apply them across various industries, including business transformation, technology development, and innovation-driven projects.

Course Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of Agile project management and its benefits
- Explain the 4 values and 12 principles of the Agile Manifesto
- Identify and apply different Agile methodologies Scrum, XP, Crystal
- Apply Agile practices across various project types and industries
- Use Agile tools and techniques for planning, execution, and delivery
- Define roles and responsibilities within Agile teams
- Manage stakeholder engagement and requirements effectively
- Develop Agile planning, estimation, and risk management approaches
- Lead Agile teams and foster collaboration
- Support organizational transition toward an Agile mindset

Target Audience

This program is designed for:

- Project Managers and Program Managers
- Team Leaders and Supervisors
- PMO Members and Coordinators
- IT and Software Development Professionals
- Business Analysts and Change Managers
- Professionals involved in project and change management
