Training Course: Customer Service Management in IT

Training Course code: IT235616 From: 1 - 12 June 2026 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 10300
€ Euro

Introduction:

This course, designed by Global Horizon Training Center, focuses on enhancing customer service management within the Information Technology IT sector. As IT becomes a critical driver of business success, effective customer service plays a key role in maintaining client satisfaction, improving service delivery, and fostering long-term relationships. This program will provide participants with practical tools and techniques to manage IT customer service efficiently, aligning support processes with strategic business goals.

Objectives:

By the end of this training program, participants will be able to:

- Understand the fundamentals of customer service in an IT environment.
- Develop strategies for improving customer service performance and client satisfaction.
- Manage customer service teams and processes effectively in an IT context.
- Implement IT service management best practices, including frameworks like ITIL.
- Utilize key customer service metrics to evaluate performance and areas for improvement.
- Handle complex IT customer inquiries and technical issues with a customer-centric approach.
- Improve communication skills for better interaction with clients and internal stakeholders.
- Align IT services with organizational goals to enhance customer satisfaction.
- Develop crisis management strategies for IT service disruptions.
- Leverage technology to enhance IT customer service operations.

Course Methodology:

The course will use a combination of:

- Interactive lectures and discussions
- Case studies on IT customer service scenarios
- Role-playing exercises for real-world application

- Group work and problem-solving activities
- IT service management tools and software demonstrations
- Continuous assessments and feedback

Organizational Impact:

Upon completion of this program, organizations will benefit from:

- Improved customer satisfaction and loyalty in IT service management.
- Enhanced efficiency in IT support and service delivery.
- Better alignment of IT services with business objectives.
- Reduced customer service response time and increased issue resolution rate.
- More effective handling of technical inquiries and service disruptions.
- Stronger collaboration between IT and non-technical departments.

Target Audience:

This course is suitable for:

- IT service managers
- IT support team leaders
- Customer service professionals in IT companies
- Helpdesk supervisors and team members
- IT project managers
- Technical support specialists
- Anyone responsible for managing or delivering customer service in an IT setting
