## Training Course: The Governance & Risk Management in the Public Sector

Training Course code: MA236434 From: 19 - 30 October 2026 Venue: Milan (Italy) - Training Course Fees: 9450 € Euro

### Introduction

Effective governance and risk management are fundamental pillars for ensuring transparency, accountability, and sustainable performance in public sector institutions. Governments and public organizations operate in complex environments characterized by regulatory requirements, political oversight, financial constraints, and increasing public expectations. In this context, adopting structured governance frameworks and proactive risk management practices is essential for achieving strategic objectives, protecting public resources, and enhancing institutional resilience.

This training program, designed by Global Horizon Training Center, aims to equip public sector leaders, managers, and professionals with the knowledge and practical tools required to establish strong governance systems and implement effective risk management frameworks within governmental and public institutions. Participants will explore international best practices in governance, internal control, compliance, and enterprise risk management while learning how to align governance structures with national strategies, regulatory requirements, and organizational priorities.

Through a combination of practical case studies, interactive discussions, and applied methodologies, the program will help participants understand how to identify, assess, and mitigate risks, strengthen decision-making processes, enhance accountability, and promote integrity within public sector institutions.

### Objectives

By the end of this training program, participants will be able to:

- Understand the core principles of governance and risk management in the public sector.
- Identify governance frameworks and models used in governmental institutions.
- Develop structured approaches to identifying and assessing organizational risks.
- Implement risk management strategies that support public sector decision-making.
- Strengthen accountability, transparency, and compliance within government entities.
- Integrate governance and risk management practices with strategic planning and public policy implementation.
- Enhance institutional resilience against financial, operational, regulatory, and reputational risks.
- Apply international best practices and governance standards within public organizations.

### Target Audience

This program is designed for professionals working in the public and governmental sectors, including:

- Government officials and senior public administrators
- Directors and managers in public institutions
- Governance and compliance officers
- Risk management professionals
- Internal auditors and regulatory specialists
- Policy advisors and strategic planning professionals
- Professionals involved in institutional oversight and public accountability
