Training Course: Certificate in IT Management Processes (CITMP)

Training Course code: IT236377 From: 22 - 26 November 2026 Venue: Manama (Bahrain) - Training Course Fees: 5150 € Euro

Introduction

The Certificate in IT Management Processes CITMP is a comprehensive professional training program designed and developed by Global Horizon Training Center to equip participants with the essential knowledge, frameworks, and practical tools required to effectively manage, control, and optimize IT processes within modern organizations.

In today's digitally driven environment, IT departments are no longer support functions; they are strategic partners that enable business continuity, innovation, governance, and competitive advantage. This program focuses on aligning IT services and processes with organizational objectives, ensuring efficiency, reliability, risk control, and continuous improvement.

The CITMP program integrates global best practices from IT service management, IT governance, process optimization, and operational excellence, with a strong emphasis on real-world application, decision-making, and performance measurement.

Objectives

By the end of this program, participants will be able to:

- Understand the core concepts and structure of IT management processes
- Align IT processes with business strategy and organizational goals
- Design, implement, and improve IT operational and management processes
- Apply best practices in IT service delivery, governance, and control
- Manage IT resources, performance, risks, and compliance effectively
- Establish KPIs and metrics to measure IT process performance
- Enhance service quality, efficiency, and stakeholder satisfaction

Organizational Impact

Organizations whose employees attend the CITMP program will benefit from:

- Improved IT process efficiency and service reliability
- Better alignment between IT and business objectives
- Enhanced governance, risk management, and compliance

- Reduced operational disruptions and service downtime
- Improved decision-making through performance measurement
- Higher customer and stakeholder satisfaction
- Stronger IT leadership and process ownership culture

Target Audience

This program is designed for:

- IT Managers and IT Supervisors
- IT Operations and Service Managers
- IT Project Managers
- IT Governance, Risk, and Compliance Professionals
- Systems and Network Team Leaders
- Digital Transformation and Technology Managers
- Professionals involved in managing or overseeing IT processes
