Training Course: Financial Analysis, Planning, Control & Payroll Management

Training Course code: FI236128 From: 14 - 25 June 2026 Venue: Dubai (UAE) - Training Course Fees: 7700 € Euro

Introduction

This 10-day training program is designed to provide business professionals with a comprehensive understanding of financial management, planning, control, and payroll management. It focuses on equipping participants with the skills needed to effectively plan for the future, apply financial techniques for budgeting and control, and improve performance using financial analysis tools. In addition, the program includes a deep dive into payroll management, covering key topics such as tax calculations, compliance, and reporting. Participants will learn how to link planning, budgeting, costing, and performance measurement, and master the skills necessary for budgetary and cost control, while also integrating payroll processes into broader financial operations. By the end of the program, delegates will have a solid foundation in both strategic financial planning and the operational aspects of payroll management.

Objectives

The program aims to help participants answer critical financial questions such as:

- Which financial variables, relationships, and trends are most helpful in problem analysis?
- How reliable is financial data, and how does uncertainty impact decisions?
- What is the importance of cash flow versus accounting profit in financial analysis?
- How do limitations in financial data and financial statements affect analysis?
- What is the role of qualitative judgment in decision-making?

Focus will also be placed on:

- Strategic planning and budgeting
- Payroll management, including tax calculations, compliance, and reporting
- Building a performance measurement system
- Costing and budgeting terminology in business
- Performing and interpreting variance analysis

Organizational Impact

- Enhanced understanding of finance as a strategic decision-making tool
- Ability to apply appropriate financial and payroll management tools in decision-making
- Greater awareness of the impact of external factors on financial planning
- Improved financial analysis and strategic planning leading to better company performance

Personal Impact

Participants will:

- Broaden their financial knowledge and effectively manage financial aspects of their roles
- Gain self-confidence in dealing with financial matters
- Develop an understanding of how financial decisions support organizational strategy
- Improve their ability to interpret and use financial and payroll data for decision-making

Training Program Outline

Day 1:

- Introduction to Financial Decision-Making
 - Key financial analysis techniques
