Training Course: Oil & Gas Operational Safety

Training Course code: HE7027 From: 9 - 13 August 2026 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel
Training Course Fees: 4775 € Euro

Introduction

Effective health and safety training is critical in the oil and gas industry, as demonstrated by major incidents like Deepwater Horizon 2010, Piper Alpha 1988, and others. This program helps participants enhance skills in identifying root causes, assess business risks, understand oil and gas risk assessment techniques, and apply advanced risk management methods for prevention and control.

Objectives

- Explain the purpose of and procedures for investigating incidents and how the lessons learned can be used to improve health and safety in the oil and gas industries
- Explain the hazards inherent in oil and gas arising from the extraction, storage, and processing of raw materials and products
- Outline the risk management techniques used in the oil and gas industries
- Explain the purpose and content of an organization's documented evidence to provide a convincing and valid argument that a system is adequately safe in the oil and gas industries

Target Audience

This program is designed for professionals involved in health, safety, and operational management within the oil and gas industry, including:

- Health, Safety, and Environment HSE Officers and Engineers
- Safety Supervisors and Advisors
- Operations and Production Engineers
- Maintenance and Mechanical Engineers
- Process Engineers and Plant Operators
- Project Managers and Site Managers
- Risk Management and Compliance Professionals
- Quality Assurance and Control Personnel
- Emergency Response and Fire Safety Teams
- Contractors and personnel working in high-risk environments within oil and gas facilities

It is also suitable for individuals seeking to enhance their knowledge of process safety, risk assessment techniques, and incident investigation in high-hazard industries.

Outlines
