## Training Course: Facility Management Professional

Training Course code: MA236052 From: 16 - 20 August 2026 Venue: Cairo (Egypt) - Holiday Inn & Suites Cairo Maadi, an IHG Hotel Training Course Fees: 3750 € Euro

### Introduction:

Facility Management FM is a critical discipline that ensures the optimal functionality of the built environment by integrating people, processes, place, and technology. This 5-day training program, designed by Global Horizon Training Center, delves into the core principles, best practices, and advanced strategies of facility management. Participants will gain a comprehensive understanding of how to manage facilities efficiently, ensure safety and comfort, and align FM practices with organizational goals. The program will combine theory with real-world applications to develop highly skilled facility managers who can adapt to dynamic business environments and contribute to organizational excellence.

### Objectives:

By the end of this training program, participants will be able to:

- Understand the fundamentals and evolving role of facility management within organizations.
- Apply strategic planning principles to facility operations.
- Develop sustainable, safe, and effective facility maintenance and management strategies.
- Utilize performance measurement tools to evaluate facility operations.
- Improve space utilization, environmental impact, and occupant satisfaction.
- Collaborate effectively with stakeholders to meet organizational and user needs.

### Target Audience:

- Facility Management professionals in mid-level roles

- Building and property management professionals
- Technical staff seeking to broaden their FM skills
- Operations professionals working within facility environments
- Individuals with 3 to 7 years of experience in facility management, operations, or building services

## Outlines:

### Day 1: Introduction to Facility Management & Its Strategic Role

- Definition, scope, and evolution of facility management.
- Facility management's contribution to organizational performance.
- Key functions and responsibilities of facility managers.
- Regulatory and legal frameworks in facility management.
- The future of FM: trends and emerging technologies.

### Day 2: Facility Planning & Space Management

- Principles of strategic facility planning.
- Space utilization and optimization techniques.
- Workplace design for flexibility and productivity.
- Planning for growth, change, and downsizing.
- Case studies in effective facility planning.

### Day 3: Maintenance Management & Operations Excellence

- Types of maintenance strategies preventive, predictive, reactive.
- Asset management and lifecycle costing.
- Managing vendors and service providers.
- Ensuring safety, health, and environmental compliance.
- Measuring performance and key performance indicators KPIs.

#### Day 4: Financial Management & Risk Mitigation

- Budgeting for facility operations and capital projects.
- Cost control and procurement strategies.
- Risk assessment and contingency planning.
- Emergency preparedness and disaster recovery in facilities.
- Managing FM-related contracts and service agreements.

#### Day 5: Sustainability, Technology, and Integrated Facility Management

- Green building practices and environmental stewardship.
- Technology in FM: Building Management Systems BMS and smart facilities.
- Stakeholder communication and change management.
- Integrating FM with organizational culture and goals.
