Training Course: ICAO Validator

Training Course code: SC236542 From: 16 - 20 August 2026 Venue: Dubai (UAE) - Training Course Fees: 5390 € Euro

Introduction

This training program has been designed by [Global Horizon Training Center](#) to equip aviation professionals with the knowledge, skills, and competencies required to perform validation, compliance assessment, and oversight activities in accordance with the standards and recommended practices of the [International Civil Aviation Organization ICAO](#). The program focuses on ICAO regulatory frameworks, validation methodologies, compliance verification techniques, evidence-based assessment, reporting practices, and continuous improvement processes to support aviation safety, security, and regulatory compliance.

Course Objectives

By the end of this program, participants will be able to:

- Understand the role and responsibilities of an ICAO Validator.
- Interpret ICAO Standards and Recommended Practices SARPs.
- Apply validation and compliance assessment methodologies effectively.
- Conduct audits, inspections, and validation activities in aviation environments.
- Evaluate organizational compliance with ICAO requirements.
- Collect, review, and analyze evidence to support validation findings.
- Prepare professional validation reports and recommendations.
- Support corrective action plans and continuous improvement initiatives.
- Enhance regulatory oversight and compliance monitoring capabilities.

Training Methodology

The program utilizes a combination of:

- Interactive presentations and expert-led discussions.
- ICAO-based case studies and practical examples.
- Group exercises and validation workshops.
- Compliance assessment simulations.

- Audit and inspection scenarios.
- Review of real-world aviation oversight practices.

Organizational Impact

Upon completion of this program, organizations will benefit from:

- Improved regulatory compliance and oversight effectiveness.
- Enhanced aviation safety and operational performance.
- Stronger internal validation and compliance monitoring processes.
- Improved readiness for ICAO audits and assessments.
- Increased consistency in inspection and verification activities.
- Better management of corrective and preventive actions.

Target Audience

- Civil Aviation Authority Inspectors.
- Aviation Safety and Security Officers.
- Regulatory Compliance Managers.
- Quality Assurance and Audit Personnel.
- Airport Operations Managers.
- Airline Compliance and Safety Professionals.
- Aviation Regulatory Oversight Personnel.
- Personnel involved in ICAO compliance and monitoring activities.

Outlines

Day 1:

ICAO Framework and Regulatory Oversight Fundamentals

- Overview of ICAO, its mission, structure, and global aviation role.
- ICAO Standards and Recommended Practices SARPs.

- ICAO Annexes and their application in regulatory oversight.
- Fundamentals of aviation regulatory compliance.
- Roles, responsibilities, and competencies of an ICAO Validator.
- Principles of effective oversight and compliance monitoring.

Day 2:

Validation Planning and Compliance Assessment Techniques

- Validation principles and methodologies.
- Planning and preparation for validation activities.
- Review of policies, procedures, and regulatory documentation.
- Compliance assessment frameworks and evaluation criteria.
- Risk-based validation and prioritization approaches.
- Evidence collection and verification techniques.

Day 3:

Conducting Validation and Verification Activities

- On-site validation processes and field assessments.
- Interviewing techniques for validation activities.
- Inspection of operational records and documentation.
- Verification of compliance implementation.
- Identifying findings, observations, and non-conformities.
- Documentation of validation results and supporting evidence.

Day 4:

Reporting, Findings Analysis, and Corrective Actions

- Classification of validation findings.
- Root cause analysis techniques.
- Developing effective validation reports.

- Writing objective findings and recommendations.
- Corrective action plans and follow-up processes.
- Monitoring implementation and effectiveness of corrective measures.

Day 5:

Continuous Compliance and Validation Excellence

- Establishing sustainable compliance monitoring programs.
- Integrating safety, quality, and regulatory compliance systems.
- Key Performance Indicators KPIs for validation activities.
- Best practices in aviation oversight and compliance assurance.
- Lessons learned from international aviation case studies.
- Capstone workshop: Conducting a complete ICAO validation exercise.
