Training Course: Integrated Project Management, Primavera P6 & BIM (Revit) Mastery

Training Course code: MA236587 From: 2 - 6 August 2026 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 5775 ₺ Euro

Introduction

The **PMP, Primavera & Revit Mastery: Project Management, Scheduling and BIM Integration** training program is designed by **Global Horizon Training Center** to provide professionals with a comprehensive understanding of modern project management practices, advanced project scheduling techniques, and Building Information Modeling BIM using Revit.

This integrated program combines internationally recognized project management concepts based on the PMP framework, practical project planning and scheduling using Primavera P6, and BIM modeling fundamentals through Autodesk Revit. Participants will learn how to effectively manage projects from initiation through execution while integrating scheduling and digital building models to improve coordination, communication, cost control, and project delivery.

The program is designed to enhance participants' ability to manage engineering, construction, infrastructure, and capital projects using globally recognized methodologies and industry-leading software applications.

Objectives

By the end of this training program, participants will be able to:

- Understand the complete project management lifecycle based on PMP principles.
- Apply project integration, scope, schedule, cost, quality, and risk management techniques.
- Develop professional project schedules using Primavera P6.
- Create Work Breakdown Structures WBS and assign project activities.
- Monitor project performance using scheduling and progress measurement tools.
- Understand Building Information Modeling BIM concepts and workflows.
- Develop architectural and structural models using Autodesk Revit.
- Integrate BIM models with project planning and scheduling.
- Improve collaboration between project managers, planners, engineers, and design teams.
- Enhance project delivery through digital project management techniques.

Target Audience

This program is suitable for:

- Project Managers
- Project Engineers
- Planning Engineers

- Construction Engineers
- Civil Engineers
- Architectural Engineers
- Mechanical & Electrical Engineers
- BIM Engineers
- Design Coordinators
- Project Controls Professionals
- Engineering Consultants
- Infrastructure Professionals

Detailed 5-Day Outline

Day 1 - Project Management Foundations PMP Framework

- Introduction to Modern Project Management
- Project Life Cycle and Process Groups
- Organizational Structures and PMO
- Project Integration Management
- Stakeholder Identification and Engagement
- Scope Management Principles
- Developing the Project Charter
- Creating the Work Breakdown Structure WBS
- Project Planning Fundamentals

Day 2 - Project Planning & Scheduling with Primavera P6

- Introduction to Primavera P6
- Creating a New Project
- Enterprise Project Structure EPS
- Organizational Breakdown Structure OBS
- Building the Work Breakdown Structure WBS
- Defining Project Activities
- Activity Relationships and Logic
- Calendars and Constraints
- Critical Path Method CPM
- Developing the Project Baseline

Day 3 - Project Monitoring, Control & Performance Management

- Resource Planning and Assignment
- Cost Planning Fundamentals
- Progress Updating
- Schedule Monitoring and Control
- Earned Value Management EVM
- Performance Measurement
- Delay Analysis Techniques
- Project Reporting and Dashboards
- Managing Project Changes
- Closing and Lessons Learned

Day 4 - BIM Fundamentals and Revit Modeling

- Introduction to Building Information Modeling BIM
- Revit Interface and Project Setup
- Levels, Grids and Project Coordinates
- Creating Architectural Elements
- Walls, Floors, Roofs and Ceilings
- Doors, Windows and Components
- Families and Parametric Modeling
- Structural Elements
- Views, Sections and Elevations
- Project Documentation

Day 5 - BIM Coordination & Integrated Project Delivery

- Advanced Revit Modeling Techniques
- Model Coordination and Collaboration
- BIM Standards and Best Practices
- Linking Architectural, Structural and MEP Models
- Quantity Take-Off and Project Documentation
- BIM Coordination Concepts
- Integrating BIM with Project Scheduling
- Primavera and Revit Workflow Integration
- Digital Project Delivery Best Practices
- Program Review and Discussion

Registration form on the Training Course: Integrated Project Management, Primavera P6 & BIM (Revit) Mastery

Training Course code: MA236587 **From:** 2 - 6 August 2026 **Venue:** Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe **Training Course Fees:** 5775 € Euro
