Training Course: Planning and Organizing Job Procedures

Training Course code: HR236600 From: 19 - 23 October 2026 Venue: Amsterdam (Netherlands) - Training Course Fees: 5775 € Euro

Introduction

Effective planning and organization of job procedures are fundamental to achieving operational excellence, improving productivity, and ensuring consistency in workplace performance. Organizations that establish well-structured job procedures can optimize resource utilization, reduce operational risks, improve communication, and maintain compliance with organizational policies and industry standards.

The Planning and Organizing Job Procedures training program has been designed by Global Horizon Training Center GH4T to equip professionals with the knowledge, practical techniques, and organizational tools required to plan, organize, document, implement, and continuously improve work procedures. The program combines internationally recognized best practices with practical workplace applications, enabling participants to enhance efficiency, improve coordination among departments, and support organizational objectives through systematic planning and execution.

Course Objectives

By the end of this training program, participants will be able to:

- Understand the principles of planning and organizing job procedures.
- Develop structured work plans aligned with organizational objectives.
- Analyze workflows and identify opportunities for improvement.
- Design effective job procedures that increase consistency and accountability.
- Apply process mapping techniques to streamline operations.
- Prioritize work activities using proven planning tools.
- Allocate resources efficiently to maximize productivity.
- Identify operational risks and integrate preventive controls into procedures.
- Improve coordination and communication across departments.
- Monitor, evaluate, and continuously improve workplace procedures.

Course Methodology

This highly interactive training program employs a combination of modern adult learning techniques, including:

- Interactive instructor-led presentations
- Practical workshops and group exercises
- Case studies based on real organizational scenarios
- Individual and team activities
- Process mapping exercises
- Planning and scheduling simulations
- Problem-solving sessions
- Group discussions and knowledge sharing
- Best practice reviews
- Daily practical assignments and feedback

Organizational Impact

Upon successful completion of this program, organizations can expect:

- Improved operational efficiency
- Better organized work processes
- Standardized job procedures across departments
- Enhanced employee productivity
- Reduced duplication of effort
- Improved communication and coordination
- Stronger compliance with organizational policies
- Better utilization of organizational resources
- Reduced operational risks and errors
- Continuous improvement in business processes

Target Audience

This program is designed for:

- Department Managers

- Supervisors
- Team Leaders
- Operations Managers
- Administrative Professionals
- Project Coordinators
- Process Improvement Specialists
- Planning Officers
- Quality Management Personnel
- Human Resources Professionals
- Technical Staff responsible for operational procedures
