Training Course: Artificial Intelligence Driven Talent Management

Training Course code: SC236480 From: 14 - 18 September 2026 Venue: Manchester (UK) - Training Course Fees: 6510 € Euro

Introduction

In today's rapidly evolving business landscape, organizations are increasingly leveraging Artificial Intelligence AI to transform how they attract, develop, and retain talent. AI-driven talent management enables data-informed decision-making, enhances workforce planning accuracy, and improves employee experience through personalized insights and automation.

This comprehensive 5-day training program is designed by Global Horizon Training Center to equip HR professionals, talent managers, and organizational leaders with the strategic and technical understanding required to integrate AI into talent management practices. The program combines conceptual frameworks with practical applications, focusing on recruitment optimization, performance analytics, employee engagement, and predictive workforce planning.

Participants will gain the capability to align AI tools with organizational objectives, ensuring ethical, efficient, and impactful talent strategies in a digitally transformed workplace.

Objectives

By the end of this program, participants will be able to:

- Understand the fundamentals of AI and its applications in talent management
- Leverage AI tools for recruitment, selection, and onboarding processes
- Apply predictive analytics for workforce planning and talent forecasting
- Enhance employee engagement and retention through AI-driven insights
- Utilize AI in performance management and learning & development strategies
- Address ethical, legal, and governance considerations in AI deployment
- Develop a roadmap for implementing AI-driven HR transformation

Target Audience

This program is ideal for:

- HR Directors and Managers
- Talent Acquisition Specialists
- Learning & Development Professionals
- Organizational Development Experts
- Workforce Planning Analysts
- Digital Transformation Leaders in HR
- Senior Executives involved in Human Capital Strategy
