Training Course: Facility Management and Planning

Training Course code: MA236010 From: 6 - 10 September 2026 Venue: Istanbul (Turkey) - DoubleTree by Hilton Istanbul Esentepe Training Course Fees: 5775 ₺ Euro

Introduction

In today's competitive and rapidly evolving business landscape, the efficient operation and strategic planning of facilities are essential for achieving organizational excellence. Facility Management FM encompasses a broad range of disciplines and services that ensure the functionality, safety, sustainability, and efficiency of the built environment. It integrates people, processes, place, and technology to optimize operations and support the organization's core business.

The "Facility Management and Planning" training program developed by Global Horizon Training Center is designed to provide professionals with practical tools, strategic insights, and industry best practices to manage and plan facilities effectively. Participants will gain knowledge in areas such as space planning, maintenance management, asset lifecycle planning, sustainability, and regulatory compliance. The program addresses both operational and strategic aspects of facility management, enabling participants to align FM practices with organizational goals and long-term value creation.

Objectives

By the end of the training program, participants will be able to:

- Understand the scope and strategic importance of facility management.
- Develop and implement comprehensive facility plans aligned with organizational objectives.
- Apply techniques for effective maintenance, space utilization, and sustainability.
- Manage facility operations, contracts, and service level agreements SLAs.
- Conduct risk assessments and ensure regulatory compliance.
- Utilize technology and data in planning and decision-making.

Target Audience

This program is ideal for:

- Facility and property managers
- Operations and maintenance supervisors

- Engineers and technical staff
- Real estate and asset management professionals
- Health, safety, and environmental HSE officers
- Planners and administrators involved in infrastructure and buildings
