

*Training Course:
STCW Elementary First Aid*

*22 - 26 March 2027
Kuala Lumpur (Malaysia)*

Training Course: STCW Elementary First Aid

Training Course code: MM235253 From: 22 - 26 March 2027 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6825 € Euro

Introduction

Medical emergencies at sea require immediate and effective response, often in environments where professional medical assistance is not readily available. The [STCW Elementary First Aid EFA](#) course is a mandatory requirement under the [STCW Convention Regulation VI/1](#), ensuring that all seafarers are equipped with the essential skills to provide basic medical care onboard.

This program, developed by [Global Horizon Training Center](#), provides participants with the knowledge and practical skills necessary to respond to common medical emergencies at sea. It focuses on casualty assessment, life-saving techniques, and basic treatment procedures to stabilize injured or ill persons until professional medical assistance becomes available.

Participants will gain the confidence and competence required to act quickly and effectively in emergency situations, contributing to the safety and well-being of crew members.

Course Objectives

By the end of this program, participants will be able to:

- Understand the principles of first aid in a maritime environment
- Assess casualties and prioritize treatment effectively
- Perform CPR and basic life support BLS
- Treat wounds, burns, fractures, and other injuries
- Manage common medical emergencies onboard
- Use first aid equipment and onboard medical kits
- Communicate effectively during medical emergencies
- Comply with STCW first aid requirements

Target Audience

This program is designed for:

- All seafarers and maritime personnel
- Deck and engine crew members
- Maritime cadets and trainees
- Personnel preparing for STCW certification

Outline

Day 1: Introduction to First Aid and Emergency Response

- Overview of STCW VI/1 requirements
- Principles of first aid at sea
- Assessing the situation and ensuring safety
- Primary and secondary casualty assessment
- Emergency response procedures

Day 2: Basic Life Support BLS

- Cardiopulmonary resuscitation CPR techniques
- Airway management and breathing support
- Recovery position
