Security Monitoring & Control*

*3 - 7 January 2027
Cairo (Egypt)*

Training Course: Security Monitoring & Control

Training Course code: HE7040 From: 3 - 7 January 2027 Venue: Cairo (Egypt) - Training Course Fees: 4100 € Euro

Introduction

This course emphasizes the integration of security management with business operations to safeguard assets while supporting growth. Participants will learn to identify risks from internal and external sources, evaluate vulnerabilities, and implement safeguards like Crisis Management and Business Continuity Plans. The program highlights the importance of risk analysis, security surveys, and strategic risk quantification to secure executive support. It equips security professionals with the knowledge to design effective plans, align security functions with corporate goals, and meet international standards in asset protection. Delegates will gain leadership skills to manage teams and projects successfully.

Objectives

- Best management practice and how to apply these principles.
- Planning security projects and implementing these effectively.
- Creating a protection program to protect intellectual property in addition to physical assets.
- Running a proactive professional security team.
