Training Course: NFPA 101: Life Safety Code Essentials

Training Course code: HE234780 From: 12 - 16 April 2027 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300
€ Euro

Introduction

NFPA 101, Life Safety Code, the single most widely used source for strategies to protect people based on building construction, protection, and occupancy features. NFPA 101 is the only Code that addresses occupant safety in new and existing buildings.

Designed by Code experts, this self-guided flexible program is ideal for anyone concerned with life safety compliance. You'll learn about fundamental concepts for a variety of occupancies through six modules featuring interactive exercises and job aids. Each one-hour course ends with an exam to test your knowledge.

Course Objectives

- Explain the organization of the 2018 edition of NFPA 101 and key Code concepts
- Describe Code applicability for new and existing occupancies
- Define the three parts of the means of egress
- Determine exit enclosure and protection
- Determine occupant load and egress capacity for both individual means of egress components and the entire means of egress
- Determine requirements for illumination, emergency lighting, and egress markings
- Determine requirements for vertical openings, hazardous areas, interior finish, contents and furnishings, and fire alarm and extinguishing systems
- Differentiate among the rehabilitation work categories identified in Chapter 43

Target Audience

Anyone concerned with life safety compliance including:

- This program is suitable for:
- Current and Aspiring Supervisors - Individuals currently in supervisory roles or preparing to take on such roles with a focus on safety management.
- Safety Officers and Coordinators - Professionals responsible for overseeing and implementing safety practices within the organization.
- Team Leads and Managers - Individuals leading teams and overseeing safety protocols across various work environments.
- Anyone Seeking to Enhance Their Safety Supervision Knowledge - Professionals looking to expand their safety management expertise and gain certification in supervising safety.

Outlines
