Kuala Lumpur (Malaysia)*

Training Course: Implementing and Auditing ISO-14001

Training Course code: EN9100 From: 10 - 14 May 2027 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6825 € Euro

Introduction

ISO 14001 is the internationally recognized standard for Environmental Management Systems EMS, enabling organizations to manage environmental responsibilities systematically, ensure regulatory compliance, and drive sustainability performance. Effective implementation and auditing of ISO 14001 are essential for achieving certification and continuous improvement.

This program, designed by Global Horizon Training Center, equips participants with the knowledge and practical skills required to implement, maintain, and audit an ISO 14001 Environmental Management System in line with international best practices.

Course Objectives

By the end of this program, participants will be able to:

- Understand the structure and requirements of ISO 14001
- Implement an Environmental Management System EMS
- Identify environmental aspects and impacts
- Develop environmental policies, objectives, and controls
- Conduct internal EMS audits
- Evaluate compliance with legal and regulatory requirements
- Prepare for certification audits
- Drive continuous improvement in environmental performance

Target Audience

This program is designed for:

- Environmental and Sustainability Managers
- HSE and Compliance Professionals
- Internal Auditors and Quality Professionals
- Facility and Operations Managers
- Engineers involved in environmental management
- Professionals seeking ISO 14001 certification knowledge
