Manama (Bahrain)*

Training Course: Red Hat Enterprise Linux - Management & Administration

Training Course code: IT234916 From: 27 June - 1 July 2027 Venue: Manama (Bahrain) - Training Course Fees: 5150 € Euro

Introduction

Red Hat Enterprise Linux - Management & Administration equips you with Linux® administration "survival skills" by focusing on foundational Linux concepts and core tasks. You will learn how to apply command-line concepts and enterprise-level tools, starting you on your journey toward becoming a full-time Linux system administrator.

Objectives

- Introduction to the command line
- Managing physical storage
- Install and configure software components and services
- Establish network connections and control firewall restrictions
- Monitor and manage running processes
- Manage and secure files and file systems
- Administer users and groups
- Review the system log files and journal for issues
- Troubleshoot problems and analyze systems with Red Hat Insights
- Remotely manage systems with SSH and the Web Console

Target Audience

This course is designed for a wide range of IT professionals, including:

- Windows System Administrators looking to transition into Linux environments
- Network Administrators responsible for managing infrastructure and connectivity
- Junior Linux System Administrators seeking to strengthen their foundational skills
- IT Support Engineers involved in system troubleshooting and maintenance
- DevOps Engineers who require Linux knowledge for automation and deployment
- Cloud and Virtualization Engineers working with Linux-based platforms
- Cybersecurity Professionals who need Linux administration skills for securing systems
- Technical Professionals aiming to pursue Red Hat certifications such as RHCSA
