Training Course: Strategic Procurement & Contracting MBA

Training Course code: PC4080 From: 14 - 18 February 2027 Venue: Sharm El-Sheikh (Egypt) - Sheraton Sharm Hotel
Training Course Fees: 4350 € Euro

Introduction

This programme presents advanced project delivery, planning, and monitoring methodologies, negotiation strategies, and the use of innovative technologies for the management of oil and gas projects. It provides practical examples of successful and unsuccessful practices, enabling participants to apply lessons directly in their work.

Programme Objectives

By the end of the programme, participants will be able to:

- Discuss advanced project delivery systems and approaches
- Explain the role of design in oil & gas projects
- Apply advanced techniques to mitigate risks in compressed schedules
- Identify key project success factors and characteristics
- Utilize Lead/Lag scheduling for construction projects
- Update project schedules and monitor cost and cash flow effectively
- Apply negotiation skills to diffuse conflicts and resolve disputes
- Understand warranty and contractual issues
- Integrate modern management methods and technologies in project execution
- Use computer tools to enhance project planning and control

Target Audience

- Project managers and engineers in oil & gas projects
- Procurement and contracts managers
- Construction managers and planners
- Financial and project control personnel involved in large-scale projects

Programme Outline

Day 1 - Project Delivery Systems & Project Finance
