Conference: The Convergence of Strategy and AI: Shaping the Future of Management

Conference code: CO235684 From: 11 - 15 April 2027 Venue: Cairo (Egypt) - Conference Fees: 4100 € Euro

Introduction

This 5-day conference explores the intersection of strategic management and artificial intelligence AI, focusing on how organizations can leverage AI technologies to drive innovation, enhance decision-making, and achieve competitive advantage. With keynote speakers, expert panels, and interactive workshops, the event provides participants with cutting-edge insights into integrating AI into their strategic and managerial practices.

Target Audience

- Senior executives, managers, and decision-makers.
- Strategic planners and consultants.
- AI practitioners and technology leaders.
- Academics and researchers in management and AI.
- Entrepreneurs and innovators exploring AI-driven strategies.

Objectives

- Understand the impact of Artificial Intelligence on modern strategic management and organizational performance.
- Explore AI-driven approaches to strategic planning and decision-making.
- Identify practical applications of AI in operational efficiency, resource management, and business analytics.
- Develop skills for integrating AI technologies into management practices and organizational strategies.
- Examine the role of AI in innovation, competitiveness, and sustainable growth.
- Understand the ethical, governance, and risk considerations associated with AI implementation.
- Gain practical insights through case studies, workshops, and interactive discussions.
