Microsoft 365 Mobility and Security Track*

*16 - 20 August 2027
London (UK)*

Training Course: Microsoft 365 Mobility and Security Track

Training Course code: IT234717 From: 16 - 20 August 2027 Venue: London (UK) - Training Course Fees: 6300 € Euro

Introduction

In Microsoft 365 security management, you will examine all the common types of threat vectors and data breaches facing organizations today, and you will learn how Microsoft 365's security solutions address these security threats.

You will then learn how to manage the Microsoft 365 security services, including Exchange Online Protection, Advanced Threat Protection, Safe Attachments, and Safe Links. Finally, you will be introduced to the various reports that monitor your security health. You will then transition from security services to threat intelligence; specifically, using the Security Dashboard and Advanced Threat Analytics to stay ahead of potential security breaches.

Course Objectives

After completing this course, learners should be able to

- Microsoft 365 Security Metrics
- Microsoft 365 Security Services
- Microsoft 365 Threat Intelligence
- Data Governance in Microsoft 365
- Archiving and Retention in Office 365
- Data Governance in Microsoft 365 Intelligence
- Search and Investigations
- Device Management
- Windows 10 Deployment Strategies
- Mobile Device Management

Target Audience

- This course is designed for individuals aspiring to the Microsoft 365 Enterprise Administrator role
- It is intended for candidates who have already completed one of the Microsoft 365 role-based administrator certification paths
- The course is suitable for professionals seeking advanced knowledge in Microsoft 365 enterprise administration

- It is ideal for IT administrators aiming to manage enterprise-level Microsoft 365 environments and services
