Training Course: Supervising for safety certification

Training Course code: HE235217 From: 5 - 9 April 2027 Venue: Kuala Lumpur (Malaysia) - Training Course Fees: 6300 € Euro

Introduction:

Welcome to the Supervising for Safety Certification program offered by [Global Horizon Training Center](#). This program is designed to provide supervisors with the essential knowledge and skills needed to effectively manage and supervise safety in various workplace environments. As safety is a critical component of any organization's well-being, supervisors play an essential role in ensuring the safety of employees and compliance with safety regulations. This certification program prepares individuals to manage safety hazards, develop safety procedures, and foster a culture of safety in the workplace.

Objectives:

The primary objectives of this training program are to:

- Provide participants with a comprehensive understanding of safety regulations and best practices.
- Equip supervisors with the skills to identify and mitigate safety hazards.
- Foster a safety-first culture within the organization.
- Prepare participants for the Supervising for Safety Certification exam.

Target Audience:

This program is ideal for:

- Current and aspiring supervisors looking to enhance their knowledge and skills in safety supervision.
- Safety officers and coordinators responsible for implementing and overseeing safety programs.
- Team leads and managers who are responsible for safety oversight and management within their teams.
- Anyone seeking to gain a deeper understanding of safety regulations, hazard identification, and risk management to create a safer workplace.

Program Outline:

Day 1: Safety Fundamentals

- Introduction to safety management
- Understanding legal and regulatory requirements
- Building a safety culture and leadership
- Identifying hazards and conducting assessments

Day 2: Safety Planning and Communication

- Developing safety plans and policies
- Enhancing effective safety communication

- Planning and managing emergency responses
- Conducting safety meetings and reporting incidents

Day 3: Risk Management and Incident Investigation

- Performing risk assessments and implementing control measures
- Incident reporting and investigation techniques
- Conducting root cause analysis to prevent reoccurrence
- Implementing corrective and preventive actions

Day 4: Safety Training and Compliance

- Employee training and ensuring competency in safety tasks
- Conducting safety audits and inspections
- Occupational health and hygiene principles
- Understanding safety equipment and personal protective equipment PPE

Day 5: Supervising for Safety Certification Prep

- Review of key concepts and essential topics covered throughout the program
- Practice quizzes and mock assessments
- Certification exam to assess knowledge and skills
- Issuance of certification upon successful completion of the exam
