Training Course: Investment Management & Analysis

Training Course code: MA234691 From: 25 - 29 April 2027 Venue: Amman (Jordan) - Training Course Fees: 4200 € Euro

Introduction

In today's complex and volatile financial environment, effective investment management requires a strong understanding of financial markets, asset classes, and analytical techniques. The [Investment Management & Analysis](#) program is designed to equip participants with the knowledge and tools needed to evaluate investment opportunities, manage portfolios, and optimize returns while controlling risk.

This program provides a comprehensive overview of investment strategies, portfolio construction, risk management, and performance evaluation, enabling participants to make informed, data-driven investment decisions across different market conditions.

Course Objectives

By the end of this program, participants will be able to:

- Understand key concepts and structures of financial markets and investment products
- Analyze different asset classes including equities, bonds, and derivatives
- Apply portfolio management techniques to optimize risk and return
- Evaluate investment opportunities using financial and analytical tools
- Measure and manage investment risk effectively
- Apply fundamental and technical analysis methods
- Understand active and passive investment strategies
- Evaluate portfolio performance using key financial metrics
- Develop and implement investment strategies aligned with objectives
