TRAINING CENTER

Training Course:
Supply Chain and Inventory Management

5 - 9 January 2020
Geneva (Switzerland)

Training Course:
Supply Chain and Inventory Management

Training Course code: PU4066 From: 5 - 9 January 2020 Venue: Geneva (Switzerland) - Training Course Fees: 5250 Euro

INTRODUCTION

In today's competitive environment, the best supply chain will win. The chain that offers the highest value to its customers will have the competitive advantage. This requires a broader outlook than just the borders of the company. Indeed, it requires full visibility of all the players in the supply chain. In this programme you will study:

- The various processes in the Supply Chain
- The structure of a Supply Chain
- What makes a Supply Chain successful?
- The role of inventory in the Supply Chain

PROGRAMME OBJECTIVES

- To define and understand the concept of a Supply Chain
- The role of inventory in the Supply Chain
- Critically determine the amount of spare parts required
- Determining the optimal inventory solution for spare parts
- Implement creative ways of reducing working capital

TRAINING METHODOLOGY

Participants will learn by active participation throughout the programme through the use of programme materials, exercises, questionnaires, training videos and discussion of "real life" issues in their organisations.

PROGRAMME SUMMARY

This programme covers essential skills that are necessary to plan, execute and control the Supply Chain. The programme begins with the concept of a Supply Chain and will discuss all the aspects relating to Supply Chain Management.

PROGRAMMEME OUTLINE

DAY 1 - The Concept of the Supply Chain

- Historic overview of ancient supply chains
